## **SOLIDWORKS Simulation Premium: Dynamics**

Dassault Systèmes SolidWorks Corporation  
175 Wyman Street  
Waltham, Massachusetts 02451 USA

© 1995-2020, Dassault Systemes SolidWorks Corporation, a Dassault Systèmes SE company, 175 Wyman Street, Waltham, Mass. 02451 USA. All Rights Reserved.

The information and the software discussed in this document are subject to change without notice and are not commitments by Dassault Systemes SolidWorks Corporation (DS SolidWorks).

No material may be reproduced or transmitted in any form or by any means, electronically or manually, for any purpose without the express written permission of DS SolidWorks.

The software discussed in this document is furnished under a license and may be used or copied only in accordance with the terms of the license. All warranties given by DS SolidWorks as to the software and documentation are set forth in the license agreement, and nothing stated in, or implied by, this document or its contents shall be considered or deemed a modification or amendment of any terms, including warranties, in the license agreement.

For a full list of the patents, trademarks, and third-party software contained in this release, please go to the Legal Notices in the SOLIDWORKS documentation.

## **Restricted Rights**

This clause applies to all acquisitions of Dassault Systèmes Offerings by or for the United States federal government, or by any prime contractor or subcontractor (at any tier) under any contract, grant, cooperative agreement or other activity with the federal government. The software, documentation and any other technical data provided hereunder is commercial in nature and developed solely at private expense. The Software is delivered as "Commercial Computer Software" as defined in DFARS 252.227-7014 (June 1995) or as a "Commercial Item" as defined in FAR 2.101(a) and as such is provided with only such rights as are provided in Dassault Systèmes standard commercial end user license agreement. Technical data is provided with limited rights only as provided in DFAR 252.227-7015 (Nov. 1995) or FAR 52.227-14 (June 1987), whichever is applicable. The terms and conditions of the Dassault Systèmes standard commercial end user license agreement shall pertain to the United States government's use and disclosure of this software, and shall supersede any conflicting contractual terms and conditions. If the DS standard commercial license fails to meet the United States government's needs or is inconsistent in any respect with United States Federal law, the United States government agrees to return this software, unused, to DS. The following additional statement applies only to acquisitions governed by DFARS Subpart 227.4 (October 1988): "Restricted Rights - use, duplication and disclosure by the Government is subject to restrictions as set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252-227-7013 (Oct. 1988)."

In the event that you receive a request from any agency of the U.S. Government to provide Software with rights beyond those set forth above, you will notify DS SolidWorks of the scope of the request and DS SolidWorks will have five (5) business days to, in its sole discretion, accept or reject such request. Contractor/ Manufacturer: Dassault Systemes SolidWorks Corporation, 175 Wyman Street, Waltham, Massachusetts 02451 USA.

## Introduction

About This Course .....	2
Prerequisites .....	2
Course Design Philosophy .....	2
Course Length .....	2
Using this Book .....	2
Laboratory Exercises .....	2
About the Training Files .....	3
Windows .....	3
User Interface Appearance .....	3
Conventions Used in this Book .....	3
Use of Color .....	4
More SOLIDWORKS Training Resources .....	4
Local User Groups .....	4
What is SOLIDWORKS Simulation? .....	5

## Lesson 1: Vibration of a Pipe

Objectives . . . . .	7
Problem Description . . . . .	8
Static Analysis. . . . .	8
Frequency Analysis. . . . .	11
Discussion. . . . .	12
Dynamic Analysis (Slow Force). . . . .	13
Linear Dynamic Analysis . . . . .	13
Discussion. . . . .	19
Dynamic Analysis (Fast Force). . . . .	20
Summary. . . . .	22
Questions . . . . .	22
Exercise 1: Vibration of Cantilever Beam . . . . .	23
Exercise 2: Shock Load of PCB Board. . . . .	29
Summary. . . . .	34

## Lesson 2: Transient Shock Analysis According to MILS-STD-810H

Objectives . . . . .	35
Problem Description . . . . .	36
Mass Participation Factor . . . . .	41
Cumulative Mass Participation Factor . . . . .	43
Damping . . . . .	44
Viscous Damping . . . . .	45
Time Step . . . . .	49
Model with Remote Mass. . . . .	58
Remote Mass. . . . .	58
Summary. . . . .	63
Questions . . . . .	63
Exercise 3: Transient Analysis of Alternator Bracket . . . . .	64
Maximum Number of Time Increments . . . . .	70
Summary. . . . .	73

## Lesson 3: Harmonic Analysis of a Bracket

Objectives . . . . .	75
Project Description . . . . .	76
Harmonic Analysis Basics . . . . .	76
Single DOF Oscillator . . . . .	77
Harmonic Analysis of a Bracket. . . . .	78
Harmonic Study Properties. . . . .	81
Summary. . . . .	86
Questions . . . . .	86
Exercise 4: Harmonic Analysis of Alternator Bracket . . . . .	87

**Lesson 4:****Response Spectrum Analysis**

Objectives .....	93
Response Spectrum Analysis .....	94
Response Spectrum .....	94
Response Spectrum Analysis Procedure .....	95
Project Description .....	95
Response Spectrum Input .....	99
Mode Combination Method .....	101
Summary .....	103
Questions .....	103

**Lesson 5:****Random Vibration Analysis According to MIL-STD-810G**

Objectives .....	105
Project Description .....	106
Distributed Mass .....	111
Random Vibration Analysis .....	115
Power Spectral Density Function .....	118
Overall Level of Acceleration PSD .....	120
Decibels .....	121
Random Study Properties .....	123
Advanced Options .....	124
RMS Results .....	124
PSD Results .....	127
1s, 2s, 3s, ... Results .....	128
Summary .....	130
References .....	130
Questions .....	131
Exercise 5: Random Vibration Analysis of an Electronics Enclosure .....	132
Exercise 6: Circuit Board Fatigue Estimates .....	141
Exercise 7: Random Vibration Analysis of a Starter Motor .....	146

**Lesson 6:****Random Vibration Fatigue**

Objectives .....	153
Project Description .....	154
Random Vibration Fatigue .....	155
Material Properties, S-N Curve .....	155
Random Vibration Fatigue Options .....	158
Summary .....	161
Exercise 8: Random Vibration Fatigue of a Cantilever Beam .....	162

**Lesson 7:****Nonlinear Dynamic Analysis of an Electronic Enclosure**

Objectives .....	167
Project Description .....	168
Linear Dynamic Analysis .....	168
Nonlinear Dynamic Analysis .....	170
Linear vs. Nonlinear Dynamic Analysis.....	170
Rayleigh Damping .....	172
Time Integration Methods .....	173
Iterative Methods .....	174
Discussion.....	176
Summary.....	177
Questions .....	177
